

Zdeněk Vacek

Project Manager | Industry & Technology

Zdeněk is a member of the Project Management Team in Grinity. He has 19 years of experience as a Project manager and a Lead engineer in civil engineering projects focused on energy and chemical industry projects.

Zdeněk has experience leading various stages of projects, e.g. bids preparation, contract preparation, erection works, commissioning, city development, and handover (PAC).

Zdeněk has experience with understanding the requirements across the design disciplines of different stakeholders. He cooperates with abroad clients, contractors, external architects, designers. He can go into detail as it is necessary for global results.

In his role, Zdeněk establishes project management procedures and lines of communication, and he leads the project-based daily project life agenda.
